NK-6

6-BAR Hydraulic Knee

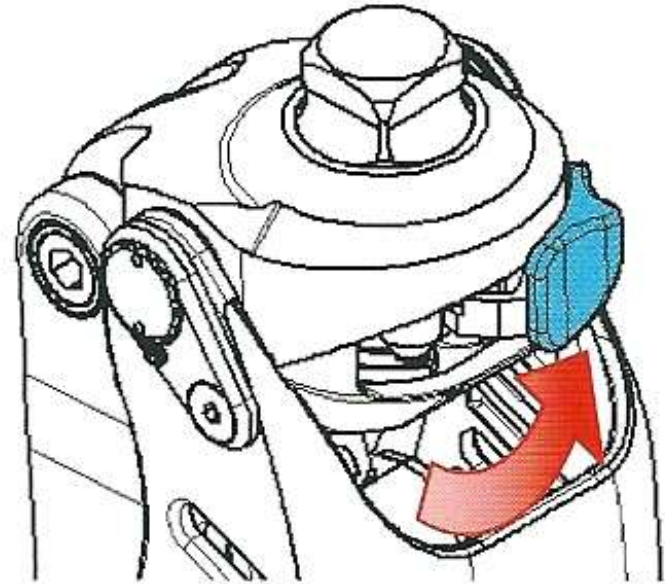

- Advanced 6-Bar Mechanism Stance-Flexion,
- Adjustable Geometrical Lock System

UNLOCKED

LOCKED

Selective lock mechanism (Must be ordered NK-6+L)

At any time, the user can switch between free knee and locked knee modes. If the user feels unsafe with the knee being free, for example on uneven ground, to prevent buckling, the knee can be locked.

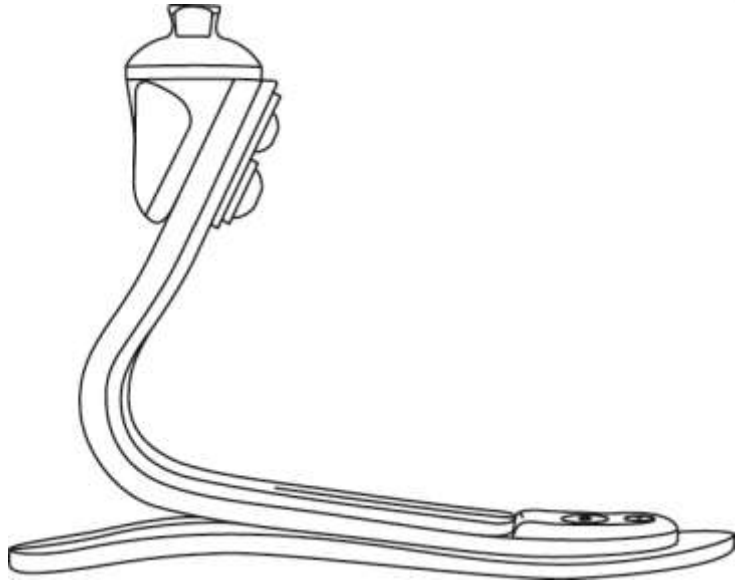

SENSOR KNEE

DURALITE™

AERIS SOLUTION

DURAWALK

QUANTUM FOOT

SACH FOOT
