Who are we?

BACPAR is a Professional Network of the Chartered Society of Physiotherapy(CSP). It was founded in 1993 to provide a nationwide network for physiotherapists involved in the specialist field of amputee and prosthetic rehabilitation.

BACPAR is active in the promotion of evidence base practice and research, is committed to education, and provides a network for the dissemination of best practice in pursuit of excellence and equity, whilst maintaining cost effectiveness.

Our Objectives

- ◆ To encourage, promote and facilitate interchange of knowledge, skills and ideas between members of BACPAR.
- ◆ To establish and promote the implementation of best practice in the field of amputation and limb deficiency rehabilitation.
- ◆ To improve communication and understanding between all disciplines working in the field of amputation and limb deficiency rehabilitation.
- ◆ To improve post registration education in this speciality.
- ◆ To encourage research in this speciality.
- ◆ To provide support and information between members and contact with similar organisations nationally and internationally.
- ◆ To support CSP policy and strategy where relevant to amputation and limb deficiency rehabilitation.

BACPAR membership

BACPAR membership is open to a wide range of individuals including Physiotherapists and Rehabilitation Assistants. Allied Associate membership is open to Doctors and other Allied Health Professionals such as Occupational Therapists, Prosthetists, Nurses and Counsellors.

BACPAR considers the promotion and facilitation of education in amputee rehabilitation to be its most important role and organises a two day national conference year to which BACPAR members are entitled to a substantial discount. You will also receive two journals a year and also be able to attend regional events.

For full membership information please see www.bacpar.csp.org.uk
